

TREE DOWN.

If You Lost a Tree During the Hurricanes, It's More Than a Nuisance — It's a Loss of Quality of Life and Property Value.

Florida lost millions of trees statewide due to hurricanes and our community health and property values have changed.

Research shows that properly planted and maintained trees survive and cause less damage, increase property value and improve community health.

Protect yourself and your investments by maintaining your trees.
Call a local Certified Arborist to have your trees inspected.

Together we can create healthy trees for healthy cities.
Visit treesarecool.com for more information.
